Subject: Antidumping investigations involving imports of PVC Flex Film originating in or exported from China PR.

Attention is invited to PF Notification NO. 14/04/2010-DGAD dated 22.6.2010, issued by the Designated Authority in respect of the above said Investigation.

2. In partial modification thereof, following amendments are made in the PF Document: -

i. Para 26 of the PF document is amended to read as under.

“Zhejiang Minglong Plastic Cement Co., Ltd. has reported export of PVC Flex Films of Frontlit Type of different GSMs’ to India during the POI. The sales to Indian customers are in CIF, CNF & FOB terms. The Authority however is in possession of the customs data of imports which reports at least *** transactions of Imports by ***, an Indian Importer. In the response of the exporter, however, no imports by the said importer are reported. In appendix 2, filed by Zhejiang Minglong Plastic Cement Co., Ltd, the name of *** does not appear at all. To that extent, the response of the said Chinese producer / exporter can be treated as incomplete. The Authority holds provisionally that the information provided by the subject exporter is not acceptable as it is. Its reliability has to be established first which is possible only after the records of the exporter are verified. Pending this verification, the Authority holds that for Provisional determination NEP cannot be worked out for this responding exporter and consequently individual DM cannot be determined. This issue however shall be revisited if the exporter gives access to its records before final determination and upon verification Authority finds that the response already filed by the subject exporter is complete.
