** The product under consideration in the present investigation is Plastic processing machines (PPM) or Injection Moulding Machines, also known as injection presser, used for processing and moulding of plastic materials.*

The scope of the product under consideration includes all kinds of plastic processing or injection moulding machines, having a clamping force not less than 40 tonnes and not more than 1500

tonnes. The scope of the product under consideration includes machines in fully assembled, semi knocked down (SKD), complete knocked down form (CKD), or a combination of SKD & CKD. The scope is further clarified below –

- a. A plastic processing machine in semi knocked down stage shall mean a plastic processing machine which is not fully assembled but is transacted as a plastic processing machine with parts or sub-assemblies not fitted together and the machine is not ready to use. A semi knockdown machine shall also imply sub-assemblies namely clamping/clamp unit, injection unit with or without screw & barrel, machine base frame and fabrication frames/covers imported for injection moulding machine.
- b. A plastic processing machine in completely knocked down stage shall mean a plastic processing machine in its incomplete or unfinished form, has the essential character of the complete machine when put together, and contains all components required for assembling the machines

The following products are specifically excluded from the scope of the product under consideration: -

- a. Blow moulding machines classified under Custom Tariff Act, 1975 under subheading. 8477 30 00.
- b. Vertical injection moulding machines.
- c. All electric injection moulding machines wherein the mechanical movements such as injection, moulding closing, moulding opening, ejection, screw-drive etc. are controlled by independent servo motors and having digital control system and without hydraulic unit.
- d. Multi-colour/multi-mould machinery for making footwear, rotary injection moulding machinery for making footwear and footwear sole/strap/heel injection moulding machine classified under the Custom Tariff Act, 1975 under sub heading 8453.
- e. Second hand/used plastic processing machines.
- f. Imports of any standalone parts/components, other than those specified above.
- g. Imports of clamping/clamp unit, injection unit with or without screw & barrel, machine base frame and fabrication frames/covers imported for production of a machine other than injection moulding machines.

#The customs classification is indicative only and not binding on the scope of the product under consideration.
