5, Parliament Street, New Delhi – 110001

Date: 29.07.2026

To,

All interested parties

Subject: PUC/PCN methodology in the anti-dumping investigation concerning imports of “Moulded Soda-Lime Glass Vials originating in or exported from China PR”.

1. Attention of all interested parties is invited to the above-mentioned investigation initiated vide Notification No. 6/28/2026-DGTR dated 30th June 2026. The non-confidential version of the application filed by the domestic industry was shared with concerned interested parties vide Letter/Email dated 2nd July 2026.

2. Whereby, the interested parties were granted an opportunity to present their comments on the scope of the product under consideration (PUC), and product control number (PCN) methodology, within a period of 15 days from the date of intimation, which ended on 17th July 2026.

3. The product under consideration (hereinafter referred to as “PUC”) was defined as under:

The product under consideration is **Moulded Soda-Lime Glass Vials** originating in or exported from China PR. The PUC is a glass packaging container that is primarily used in the pharmaceutical industry. The PUC covers pharmaceutical glass vials manufactured from soda-lime glass, conforming to Type-II and Type-III specifications. The PUC is used for storage of injectable medicines, vaccines, antibiotics, biologics and biosimilars, hormone preparations, sterile water and diluents, diagnostic reagents and laboratory preparations. The PUC is available in two colours; flint (clear/colourless) vials and amber (brown) vials. Further, the PUC is available in various capacities/sizes, for the purpose of this investigation, the PUC has been restricted to a capacity/size range of 5ml to 30ml. The following vials have been excluded from the scope of PUC:

- a. Type-I Borosilicate Glass Vials of all sizes/capacities.
- b. Type-II Moulded Soda-Lime Glass Vials (both flint and amber) of capacity/size greater than 30 ml and less than but not equal to 5 ml.
- c. Type-III Moulded Soda-Lime Glass Vials (both flint and amber) of capacity/size greater than 30 ml and less than but not equal to 5 ml.
- d. Tubular Glass Vials.

Product Control Number (PCN)

4. The applicant in the application has proposed Product Control Numbers (PCNs) as below:

S.No	Parameter-1 Capacity/Size of the Vial	PCN Proposed
1	5/7.5/8 ml	A
2	10 ml	B
3	15 ml	C
4	20 ml	D
5	30 ml	E

5. No comments in regard to the scope of PUC and PCN have been received from any interested party within the stipulated timeline and therefore the Authority adopts the same scope of product under consideration as notified in the initiation Notification No.6/28/2026-DGTR dated 30th June 2026 without any changes.

6. This communication is limited to clarifying the scope of the product under consideration and PCNs for which the present investigation is being conducted. This does not preclude interested parties from providing relevant information and evidence to substantiate their requests for exclusion for any particular product. The Authority shall decide the scope of the product under consideration for any measures recommended, after considering relevant information and evidence furnished by all interested parties during the course of the investigation.
